GANNETT/USA TODAY HQ, NORTHERN VIRGINIA

**Need QUALITY?**  
**Call METFAB!**

**METFAB** has the personnel and machines to execute any specialized metal need you have. We make unusual parts every day and work with the best contractors in the world to fabricate solutions for custom concepts. We can finish and deliver these critical parts FAST.

**METFAB** is ready to execute complex metal operations including polishing, multi-dimensional milling, grinding, brazing, rolling, edging, shearing (with straightening), complex brake-form shaping, bending, technical welding, high performance painting, and related operations. Most of these operations we self perform; others we delegate to qualified local subcontractors.

**METFAB** creates solutions for your complex metalworking needs. We work with carbon steel and stainless steel every day. Our experience includes aluminum, brass, bronze, gold, lead, monel, and titanium. Our heritage as a tool-and-die shop ensures that each customer requirement will be addressed with the familiarity and savvy of hands-on solution-builders, not theoreticians.

We take pride in providing solutions, not just parts. Our customers build the most demanding architectural concepts including designs by Pei, Vinoli, Graves, and Gehry. These worthy firms create concepts. We help transform those concepts into reality.

**METFAB** will respond to your next requirement for demanding metalwork. Our innovation, experience, and imagination will assist you in creating real-life solutions to ambitious design goals.

Metal Solutions For Building Envelopes
